

Hitting the right target every time

Quality targets certified by the ISSF and approved for use in all their Championships

Special target card, specially developed for shooting sports and hunting

Precise target face achieved by constant replacement of the direct exposure printing plates

Non-dazzling special inks, matt and deep black

Perfect ballistic characteristics due to short-fibered raw material and machine-smoothed card

Especially suitable for ring-reading machines

Laminated in special plastic foil to protect against moisture

Many years of manufacturing experience

Constant, uncompromising quality controls
